

PALINDROME CODE

```
#include<bits/stdc++.h>
using namespace std;

int main()
{ int n;
  cin >> n;
  char a[n+1];
  cin >> a;
  int i;
  bool check=1;
  for(i=0;i<n;i++)
  {
    if(a[i]!=a[n-1-i])
    {
      check=0;
      break;
    }
  }
  if(check==true)
  {
    cout << "Word is Palindrome";
  }
  else
    cout <<"Word is not Palindrome";
  return 0;
}
```
